Read Harmon's advertisement on the eighth page of this paper. It's a great store, easy of access, and worth while to visit, when you are in Chambersburg, whether you buy or not.

Mrs. Orsin Wible was an interested spectator while the News was being printed last week. Early Thursday forenoon is the most interesting time to see all the machinery running. Only the press runs Wednesdays.

Notwithstanding that gasoline sells from 25 to 30 cent a gallon, the Cline garage delivered eleven cars during the month of May which leads us to remark that, in the right lexicon of Fulton county, there is no such words as hard times.

Cattle Killed. Last Saturday evening, about 5 o'clock, lightning struck a tree under which three cows and a heifer were standing on Miss Fannie Miller's farm near Dane and all four cattle were killed. Miss Miller carried insurance and with the exception of the trouble of replacing them, her loss will not be great.

Notice. The W. C. T. U. annual meeting will be held Friday evening, June 2nd, at 7:30, at the home of Mrs. S. B. Woollet. All members are requested to be present.

A WORD FOR MOTHERS. It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

TO MAKE MONEY. on the farm you should never be without the National Stockman and Farmer—the paper published in the interest of Pennsylvania farmers and the one that has saved more Fulton County people from error than everything else combined. It comes weekly at \$1.00 a year. James S. Bratsin, at the FULTON COUNTY NEWS office McConnellsburg, will receive new subscriptions or renewals at special rates and give receipt. Ask for sample copy. 6-1-tf.

Pecans Profitable.

Persons who eat the ordinary little hard shell pecan know but little about the pleasure afforded in munching the "cultivated" nut as grown in Southern Georgia. J. C. Maun has just returned from that section where he installed a large mill, and he handed the editor a few of what is known in the markets as the paper-shell pecan. They are, in size, about three times as large as the natural variety, but the shell is thin and brittle, and the kernel full and rich.

The soil in Southern Georgia is especially adapted to its growth. A tree twelve years old will produce one bushel of nuts every year. The nuts weigh 40 lbs. to the bushel, and they bring to the producer 60 cents a pound or \$24.00 a bushel. Twenty-six trees are planted to the acre; hence, after a grove is started an annual income of \$624 an acre is "sure thing." Better than Buckwheat.

Clouser—Freeman.

On Wednesday noon, May 31st, two of McConnellsburg's highly respected and honored young people were united in the holy bonds of matrimony. The groom, Harry Andrew Clouser, son of Mr. and Mrs. Amos Clouser, has been employed in Carlisle for the last four years. The bride is Miss Ethel Freeman, the well known granddaughter of Mrs. Susan Myers. After the ceremony, which was performed by the pastor, Rev. Robt. E. Peterman, in the Lutheran parsonage, the bride and groom left for Carlisle, where they intend to be at home in the near future at 120 East North Street. Many hearty wishes and congratulations from a host of friends are following them.

New Markers.

Mr. H. C. Osterman, Field Secretary of the Lincoln Highway Association, was in town Tuesday, arranging for the repainting of the signs along the route from San Francisco to New York. The Association does the work, a big paint house furnishes the paint gratuitously, and the counties through which the road passes are supposed to pay for the actual work. Fulton County's allotment is fifteen dollars, which is being raised by popular subscription. George A. Harris was appointed by Mr. Osterman to have charge of the work in this county, of course, serving without pay.

Want an Institute?

County Chairman of Farmers' Institutes, Frank Ranck, has requested the NEWS to say that Fulton county has been allotted three 2-day institutes for this year. Wells Valley can have theirs by reason of their being disappointed last year, if they wish and will apply. This leaves two places to be selected. Mr. Ranck requests those interested to make application to him at Hancock, Md. These institutes are of vast interest, and the community that wants one should get busy at once or get left.

Honored the Pastor.

As mentioned by the NEWS on May 18th, Rev. C. W. Seville resigned the pastorate of St. Pauls Lutheran church at Minneapolis, Kansas, and on account of ill health, accepted a call to Gypsum, Colorado. Recently a farewell party was given in his honor and the congregation presented him with a set of resolutions of respect and regret.

Musical Party.

Tuesday evening of last week, at nine o'clock, a company of friends filed into the home of Lewis Mellott to surprise his daughter Miss Georgie J. E. Mellott on her 16th birthday. It was a musical party, the following players being present: John Shore, banjo; Roy Mathias, guitar; Stull Baldwin, mouth organ; Newton Regi, autoharp; Merrill Mellott, graphophone. Others present were: Porter and Miss Kate Waters; J. Naugle, Rev. Walter Byers, Rodger Kline, Dave Mentzer, Harry Brodebeck, Ralph North, Ralph Drewet, Luther Locke of Neeleyton; Jacob Locke, McKinley and Mac Moore, of Locke Valley.

DUBLIN MILLS.

We are having plenty of rain. Mrs. Margaret Houp of New Grenada, spent part of last week with her cousin, Mrs. John Grissinger. Dorsey and Edith Brown are spending some time with their parents, Mr. and Mrs. William Brown. Ray Hess and sister Luella made a business trip to Three Springs. John Laidig, of Laidig, was in our town on Thursday. Miss Ruth Hess is employed at Arthur Wagners in Sattilo. Some of our people attended the sale of J. L. Kesselings on Saturday. M. A. Grissinger and family spent Sunday afternoon at Sattilo. Ellsworth Winegardner, of Meadow Gap, is spending some time in his home at this place. Our Sunday School is moving along nicely with R Hess as Superintendent. Listen for wedding bells.

Alfalfa for Hogs.

During the past two winters, careful experiments have been made at State College in feeding hogs alfalfa or some other legume. Sows and other hogs not intended for killing were tried on alfalfa alone and the results were satisfactory. Each sow consumed about five pounds a day and received no grain. Others were fed a little grain along with the hay and naturally, they were a little fatter, but not more healthy. This should be of interest to our Fulton county people who know that hogs can almost gather their own living during summer months, but the high cost of grain to winter the sows deters some from feeding as many as they would like to keep. Good clover, or soybeans will take the place of alfalfa, and all three can be made to do well when properly planted in our slatlands and yield many more dollars worth than the average corn crop.

That Tin Can.

Who would have thought that the tin can is a menace to the public health? The expert malaria investigators of the U. S.

Public Health Service have found however that discarded tin cans containing rain water are breeding places for the mosquito, which is the sole agent in spreading malaria. A hole in the bottom of the empty can might have resulted in the saving of a human life. Certainly it would have assisted in preventing a debilitating illness. Empty tin cans have no business about the premises anyway, but if we must so decorate our back yards, let's see to it that the can has a hole in the bottom.

Tell us and we will pass it on to the other fellows. This was a hard season for farmers who needed commercial fertilizers and could not get the desired mixtures.
